1	The total number of sections of the school from class I to X shall be restricted to 14. The optimum number of the students shall be restricted to 40 for a classrooms size of 500 sq ft and above. Further, increase of sections shall be subject to specific approval of the Board based on the request of the school as per affiliation bye law and availability of class rooms of greater than 500 sq. ft. dimension. The school is directed to run at least 01 section each of Bal-Vatika I, II & III in accordance with established norms permitted vide Board's circular no. 12/2023 dated 24-03-2023 & 25/2023 dated 11-09-2023.
2	The school does not seem to have referred to RPwD Act and guidelines of the Board for CwSN toilets. Regular cubicle has been converted into CwSN toilet, which is too small and narrow for free movement of wheelchair/walker. The school building is G+3, but only one CwSN toilet for girls is seen in the inspection video. School has temporarily made provision of CwSN toilet for boys by placing a commode chair on one of the Indian toilets; which is not appropriate for use of CwSN students. As per board's circular no. 11/2024 dated 09.08.2024, separate CwSN toilets for girls and boys should be maintained on the ground floor of the school building. If classes are conducted on any floor other than the ground floor, separate CwSN compliant toilets for boys and girls with adequate space for the Wheelchair / Walker must mandatorily be maintained on those floor(s) as well. School shall comply with the guidelines for

	CwSN as per board's circular dated 09.08.2024, within 03 months and submit compliance with videography.
3	Mathematics lab is under stocked, poorly laid out and has not been established as per Board's SOPs. School has made arrangement of normal class desk, which is not appropriate furniture for labs. The Maths lab needs to have more kits, teaching aids, students' activity material and manipulative along with proper storage facility & seating arrangement. The school shall accordingly establish the lab as per SoP issued by the Board within 3 months and submit compliance on SARAS with videography.
4	Composite science lab has not been covered in the inspection video; hence, availability of lab with required infrastructure, as per norms, can not be ascertained and verified. Though, separate Chemistry, Biology and ATL science labs have been covered in the inspection video, but, composite science lab, which is mandatory for grant of affiliation upto secondary level, is not seen. It appears that Composite science lab has not been established by the school. The school shall accordingly establish the lab as per SoP issued by the Board within 3 months and submit compliance on SARAS with videography.
5	Ramps on the ground floor and for accessing the upper floors have been overlaid on a staircase and has steep slope gradient which is unsafe and not acceptable, as it is not as per norms of PRwD Act and guidelines issued by the Board. School has made temporary provision of ramps by placing wooden planks on the existing staircase. The ramp to access upper floors has one side handrail only. School shall either take corrective measures for adjusting the elevation of the ramp in accordance with the provisions laid down in RPwD Act or install a lift. As per board's circular no. 11/2024 dated 09.08.2024, a proper ramp should be mandatorily constructed to access the ground floor of the school's building. If the school conducts classes or Practicals for CwSN on any floor other than the ground floor, it shall mandatorily make provisions for a lift or ramp to access those floors. School shall comply with the guidelines for CwSN as per board's circular dated 09.08.2024, within 03 months and submit compliance with videography.
